Start PenTest Today from zero 0

OCTOBER 19

Kuhmann

**A.b: Ich bin gleich PENTESTER, Kaveh.Eyni**

Hacker OR Pen Tester

What's Difference?

As a job you must introduce yourself "A PEN TESTER" but when its need you must be ready to face off to A HACKER...

"Start Point, You Need a WAPEN
*A Device, An Email, An USB Flash Drive"*

- DEVICE
  - It not your daily use device, It's a free device
  - It can be a simple HP laptop...
  - [An Android device](#)
  - [An IOS device](#)
- EMAIL
  - You must always have a [DeepFake Profile](#)

- **USB**
  - **I advise 60 GB Cool Disk**
  - **Download KALI or Others**
  - **Backup Device Data on USB**
  - **Copy Backup in your daily use in Device**
  - **Create BootAble Disk for KALI**

Install from BOOT

- **Restart Device(laptop)**
- **Press ESC 4-5 times**
- **Enter BIOS Make USB First Boot, If need**
- **Setup Will be appeared or Press Any Key...**
- **Choose Install Option and go...**

"Attention, USB Bootable
Maybe Unknown for Windows Device.."

SETUP WAPEN

- **Fix Source Lists**
- **Setup PRIVOXY**
- **Find out Where you are?**
- **Understand More about**
  - **Unix**
  - **Linux**
  - **IP , more & more**
  - **Network Security & Programming**
  - **Tools: Reporting, Scan & Anti, Post, Develop, Social,..**
  - **Robotics Ways**
  - **Answer of Anything**
  - **Open Source Good Software, JavaScript**
  - **OSI Model and Find Vulens**
  - **Windows Firewall**
  - **Netscan & Gateways**
  - **see Jungle with WIFI**
  - **Money Transfer**
